S/P - Mr. Lake

FROM: D/HA - Patt Derian

SUBJECT: Belgrade 4520 -- Our Delegation's Request for Guidance

I believe it would be very useful for the Department's CSCE working group to convene to discuss options for the delegation's guidance.

There have been appreciable numbers of revisions to the CSCE PRM update, which has yet to be sent to the White House. Some of the changes seem to bear on the question of how to tailor the Fall agenda to serve our interests.

An airing of views around a table at this time might help us settle on what we should now tell our delegation.

I suggest the NSC be advised of the meeting.
